

## Recycling at Union Station Kansas City

As the proud recipients of the Environmental Excellence award for the year 2000, we at Union Station Kansas City would like you to share in our efforts to reduce, reuse and recycle.

Throughout this historic building are many opportunities to recycle. Here at Union Station, we recycle paper, newspaper, cardboard, plastic, aluminum and glass. Please look for our recycling mascot, created by Hallmark just for us at Union Station. You will find him where you purchase recyclable containers and also at the specific locations to collect recyclables.

In the School Lunchroom, there are several RED Coca-Cola recycle bins for your empty cans and bottles. Please be sure your containers are empty before you put them in the recycle bins.

In Science City, the BLUE recycle bins are for your used paper. By the Periodic Table Café, GREEN recycle bins are for empty cans and bottles. In the Theater District near the Extreme Screen entrance is a bin for collecting your empty cans and bottles.

Please use these recycling locations responsibly and put trash, such as food waste, in the proper receptacles.

We are committed to providing a safe, fun and environmentally friendly facility for our guests and staff. Thank you for helping us at Union Station Kansas City in our efforts to reduce, reuse and recycle.
